A word about Taxi service:

Usually there are a number of taxis that give service from/to the airport entrance (Barcelona and also Girona Airport). All taxis have a taximeter with the rates varying according to the distance and the time taken to cover it. To this must be added the minimum fare and any pertinent supplements for Sunday, night, luggage or airport service. Taxis indicate that they are available by means of a green light located on the roof of the vehicle. Generally, tips are not expected.
