Key Words: *Instructions, Multiphysics Problems, Applications, Computing Methods.*

ABSTRACT

Authors are invited to submit electronically their abstracts, through the web site of the Congress, before **December 15th, 2007**. Abstracts should outline the main features, results and conclusions as well as their general significance, and contain relevant references.

The Abstract can be submitted directly in its final form. Authors will have the possibility of replacing the file by an updated version after the acceptance notification, but this will not be a requirement.

The Abstract should be written following the format of the Latex and Word macros for submission that can be found in the Instructions for Authors area on: *http://www.iacm-eccomascongress2008.org/.* The file must be converted to Portable Document Format (PDF) before submission through the Congress web site. Other formats are not accepted by the system.

The Abstract must be written in English within a printing box of 16cm x 21cm, centered in the page. The Abstract including figures, tables and references must not exceed 2 pages. Maximum file size is 4 MB.

The Abstract must contain the full name and full address of author/s. In the case of joint authorships, the name of the author who will actually present the paper at the Congress should be indicated with an asterisk. Papers can only be accepted on the understanding that they will be presented at the Congress.

Preliminary acceptance of the contribution will be communicated to authors by **January 31st**.

The final Abstract in format for publication will be required by February 28th, 2008.

Please note that **final** acceptance of papers for presentation is conditional to receiving the final Abstract and the payment of the presenting author's congress registration fee before **February 28th, 2008**. Only one presentation per delegate is allowed.

Important: Before submitting the contribution you should be registered. Please fill in the registration form (in Registration) choosing your login and password. To modify the information or add/modify the file of the Abstract you have to log-in. Registration does not oblige contributors to pay the fees before having received the acceptance letter.

For any question, please contact IACM-ECCOMAS Congress Secretariat
